

FERA Call for Proposals for Teacher Inquiry Strand 2018 Annual Meeting – St. Petersburg, FL November 14-16, 2018

**Alyson Adams, Teacher Inquiry Proposal Review Committee Chair
Deadline for Receipt ~~August 31, 2018~~ (Extended to September 14, 2018)**

The 63rd Annual Meeting of the Florida Educational Research Association will be held on November 14-16, 2018 at the Hilton St. Petersburg Carillon Park in St Petersburg, FL.

The Teacher Inquiry Strand is a series of paper sessions focused around practitioner research, which we define as *systematic and intentional inquiry into educator practice situated within a particular educational context*. For details about teacher inquiry, we recommend using the following book: Dana, N. F., & Yendol-Hoppey, D. (2014). *The reflective educator's guide to classroom research: Learning to teach and teaching to learn through practitioner inquiry* (3rd Edition). Corwin Press.

All teacher inquiry proposals must have an educator as the first author. Presentations in this strand will be scheduled for the Thursday of the Annual Meeting (November 15, 2018), grouped by topic into paper sessions. Each individual paper presentation should be prepared for an average 15-minute time span.

Teachers whose papers are accepted will be asked to register in advance for the 2018 FERA Annual Meeting in order to ensure that the paper presentation is included in the program and appears in the program bulletin. Registration includes membership in FERA.

The FERA conference program will include all teacher inquiry papers, research papers, graduate student posters, and symposia on topics and issues of current interest to education professionals, especially those in Florida. Typical FERA audience members include university and college researchers, district and school leaders, and teacher researchers. FERA is the state affiliate of the American Educational Research Association (AERA).
